

Protection for every family member ... even the furry ones

Pet ownership is on the rise.² With over 85 million families owning a pet,² a high percentage of your employees are likely to be pet parents. In fact, more than 2.4M pets were adopted in 2020³, alone, and many of your employees likely became pet parents. Raising a pet can be a joyous experience due to their loyal, unpredictable nature, but care can quickly become expensive. After all, pets are family and it can be emotionally and financially stressful when veterinary expenses begin to stack up.

MetLife Pet Insurance¹ is committed to helping pet parents experience the joys of parenthood by providing them the confidence to care for their pet. Pet insurance helps to reimburse pet parents for covered unexpected veterinary expenses for their furry family members. This will help to give your employees confidence that they can pay for treatment for their pets if they become sick or have an accidental injury.

With MetLife Pet Insurance¹, you can offer quality coverage that's affordable for pet parents and easy to customize.
